

# 9 out of 10 UK properties are insured for the wrong amount

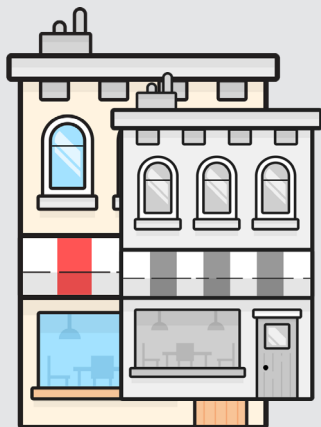

### UNDERINSURED

79% of UK properties are underinsured. This can severely reduce the amount paid out following any property damage claim.

### OVERINSURED

14% of UK properties are overinsured. If this is you, you're paying more than you need to for your insurance.

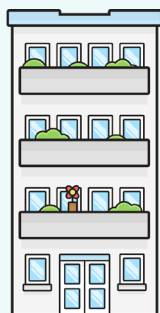

### NOT ENOUGH

We find that on average, underinsured buildings are covered for just **69%** of the amount they should be.

### TOO MUCH

While overinsured buildings are on average covered for **121%** of the correct amount.

## £315 billion\*
